

THIS YEAR'S HARVESTS BIGGEST EVER RECORDED

Value of Principal Farm Crops Announced in Final Government Estimate as \$5,508,773,000.

MANY NEW RECORDS MADE.

Unusual Situation of Extraordinary Production and High Prices, Probably Never Before So Pronounced, Credited to European War.

WASHINGTON, December 15.—The nation's harvests this year have surpassed any ever before recorded. The value of the principal farm crops, based on prices paid to farmers December 1, was announced today by the Department of Agriculture in its final estimate as \$5,508,773,000, making 1915 a bumper year both in value and in production of crops.

The unusual situation of extraordinary production and high prices, probably never before so pronounced, is credited principally to the European war.

With the price of grain soaring as the war progressed, American farmers began the season by planting greater crops of grain. The acreage of the principal crop this year aggregated approximately 456,570 square miles. That is larger than the combined area of Germany, France, Belgium, Holland, Denmark and Switzerland.

CORN IS SECOND LARGEST AREA YET PLANTED

Corn was planted on 165,321,000 acres, the second largest area ever planted, and the harvest was 3,051,555,000 bushels, the second largest crop ever grown. Its value was \$1,755,555,000, exceeding that of the previous most valuable crop by \$35,000,000.

New records were made in production by wheat, oats, barley, rye, sweet potatoes, rice and hay, while tobacco closely approached its production record, 1,102,115,000 pounds, made in 1910. Each of these crops, in addition, established records as being the most valuable ever grown, except in the case of barley and tobacco.

Production of the first 1,000,000,000 bushel wheat crop and the second 2,000,000,000 bushel corn crop were features of the year. Wheat acreage aggregated 55,848,000 acres, or 6,000,000 more than ever before. The yield was 16.3 bushels an acre, the largest acre yield for winter and spring wheat combined ever attained in this country. The final estimate of production was 1,102,115,000 bushels, with a value of \$594,502,000. The crop exceeded last year's, which was a record, by more than 120,000,000 bushels and by \$50,000,000 in value.

CLOPS ALL PLANTED ON RECORD AREAS

Oats, rye, potatoes, sweet potatoes and tobacco all were planted on record areas. Oats exceeded its record production of 1912 by 122,000,000 bushels and its record value of 1914 by \$15,000,000. Barley production was 1,000,000 bushels more than the 1912 record crop, and was worth \$1,000,000 more than the former most valuable crop, grown in 1914. Rice passed the 1912 record by 2,000,000 bushels and its 1912 record value by \$1,700,000.

Sweet potatoes exceeded by 14,000,000 bushels the 1910 record, and were worth \$3,100,000 more than the 1912 value record. Hay showed a 12,500,000-acre increase over the record crop of 1912, and was worth \$2,600,000 more than the value record made that year. Tobacco, while growing on a record acreage, was worth \$26,000,000 less than in the record year.

The potato crop received perhaps the most severe setback of the year. Farmers planted a record crop of potatoes, but the output was only 359,103,000 bushels. That was \$1,500,000 bushels below the record year, and 10,000,000 bushels less than last year. The value of the crop, however, was \$2,000,000 more than last year.

APPLE CROP VALUED AT \$156,407,000

The apple crop was 7,670,000 bushels, valued at \$156,407,000, the best crop in the three principal producing States, 9,325,000 bushels—a decrease of 1,588,000 bushels—valued at \$27,558,000, and the cranberry crop, 47,000 bushels, valued at \$2,845,000. The value of these three crops are included in the year's total.

The value of each crop was announced as follows:

Corn—\$1,755,555,000.
Wheat—\$522,012,000.
Spring wheat—\$298,250,000.
All wheat—\$520,262,000.
Oats—\$1,000,000,000.
Barley—\$122,495,000.
Rye—\$41,285,000.
Buckwheat—\$12,408,000.
Flaxseed—\$2,108,000.
Hay—\$2,600,000,000.
Potatoes—\$221,104,000.
Sweet potatoes—\$45,061,000.
Hay—\$412,220,000.
Tobacco—\$26,000,000.
Cotton—\$92,325,000.

NOT A CANDIDATE

Commissioner Gordon Requests that He Be Not Considered for Election With Juvenile Court Judgeship.

Police Commissioner W. Douglas Gordon yesterday issued a request that his name be not considered in connection with the position of judge of the New Juvenile and Domestic Relations Court.

Mr. Gordon's statement follows: "While I appreciate the good will and opinion of those who have expressed their desire to see me elected judge of the Juvenile Court, my other interests are so pressing and the advice of my professional associates to continue in my present occupation is so earnest that I feel it would be a mistake to abandon it, and, therefore, I must request that my name be not considered in connection with the position."

Mr. Gordon was mentioned for the position when the movement for the establishment of the court was inaugurated, and support for his candidacy was promised by members of the City Council and by private citizens. The other candidate, whose name has been suggested for the judgeship, is J. Hugo Ricks, chief probation officer.

A new photograph of the residence of Mrs. Norman Galt, 1308 Twentieth Street, Washington. In this house on December 18, Mrs. Galt is to become the "First Lady of the Land."

KEEPS WEDDING SECRET MORE THAN THREE MONTHS

Police Chauffeur Curry Lee Cash Claims Bride in North Carolina on September 2

Announcement of the marriage of Curry Lee Cash, police chauffeur of the Second Precinct, to Miss Barbara Alma Simmons, of Welch, N. C., on September 2, was made yesterday, after Mr. and Mrs. Cash had departed on a belated honeymoon.

The marriage was decided upon when Cash found an operation for appendicitis was necessary. He remained at the Virginia Hospital for about six weeks, and was discharged about two weeks ago. He has been regaining his health and yesterday started for a wedding trip with his bride.

News of the marriage was kept a secret during the time Cash was in the hospital. Even the bride's mother was ignorant of the fact that her daughter had been married until her condition appeared at the Welch home yesterday and claimed his bride. The ceremony was performed on one of Cash's "days off." He made the trip to the bride's home and returned on the same day. Rev. J. B. Blalock, of Welch, married them.

Mrs. Cash remained at the home of her mother, while her husband returned to Richmond and entered the hospital here. Cash was able to go for her yesterday, and both are now en route on the bridal trip. Mr. and Mrs. Cash will be away about two weeks, visiting several Northern cities. They will make their home at 920 West Clay Street.

REVIEWS MONEY TAX

Examiner of Records Says Borrowed Capital Is Not Assessed by State.

Examiner of Records William H. Sands, in an article prepared by him yesterday, makes clear his views on the money tax. "Virginia does not tax borrowed capital," he says, "unless it be that of a private broker or banker." He iterates at length his views expressed in earlier statements, and concludes:

Arrested in Theater.

Robert Schuman, seventeen years old, was arrested by Policeman Patterson yesterday on a warrant charging him with being disorderly in the Albion Theater. Schuman was bailed for his appearance in the Juvenile Court on Friday.

Roanoke Labor Law Convictions.

Three new convictions in cases involving violations of the State labor laws were reported to Labor Commissioner Doherty from Roanoke yesterday, as follows: Jabour Brothers, violating the ten-hour law, fined \$10 and costs; Foreman & sons, violating child labor law, fined \$7 and costs; S. Becker, violating child labor law, fined \$25 and costs.

The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet-Clinc," Dr. James Bell, of New York City, says he is convinced that too much medication is both unnecessary and injurious. When called to a case of La Grippe, the patient is usually seen when the fever is present, at the chill which occasionally ushers in the disease, has generally passed away. Dr. Bell then orders that the bowels be opened freely with salts, "Aetoid" or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one Antikenna Tablet every three hours is quickly followed by complete relief. 3-5 for A-K Tablets. They are also excellent for headache, neuralgia and all pains.

WANTS TO HURRY WORK ON DREADNOUGHT PLANS

Acting Secretary of Navy Says More Draftsmen and Electrical Experts Are Needed.

TO ASK CONGRESS FOR THEM

Total Expense of Increased Force Estimated at \$120,000 a Year—Preliminary Sketches of New Warships Being Closely Guarded.

[Special to The Times-Dispatch.]

WASHINGTON, December 15.—In order to expedite the construction of the dreadnaughts and battle cruisers proposed under the administration's new navy program, acting Secretary of the Navy Roosevelt said today that the department must have an additional force of sixty draftsmen and electrical experts. He stated that the department will ask authorization from Congress at once to employ the men. The total expense of the increased force would be about \$120,000 a year.

Preliminary plans are now being made at the department for the proposed dreadnaughts and battle cruisers. These will be closely guarded. Officials say that there is no chance of a repetition of the theft of important designs, such as took place on the day President Wilson was inaugurated.

The establishment of a special aviation laboratory and the assembling of a trained technical force to develop aeronautics was recommended in the first annual report of the advisory commission on aeronautics transmitted to the House today by President Wilson. The report reviews the work of the commission since its organization. It was signed by General George P. Stryker, chairman of the board.

The commission asked for an appropriation of \$85,000 for experimental work during the next year, to be expended in the establishment of a proper laboratory and the organization of a force of aviation experts.

"The importance of aircraft to the Army and Navy Departments," said the report, "in view of the utilization of such craft in the present war in Europe, is so evident that no further comment is necessary."

"Aeronautics have made such rapid

strides that when the war in Europe is over there will be found available classes of aircraft and a trained personnel for their operation which will rapidly force aeronautics into commercial field, involving developments of which to-day we barely dream."

At Work on Tax Revision.

The conference of the Virginia Code Commission was resumed yesterday in the office of Clerk John W. Williams, of the House of Delegates, with all of the members present, and substantial progress was made with the work in hand. The commission has been continuously in session many months, attending daily to the work of revision, from time to time conferences for comparison and compilation, such as are now in progress, and revising the task of reviewing and revising the Code is an intricate and onerous one, and it is likely that many more months will elapse before the work is completed.

AMERICANS ARE WAKING UP

Importance of Health in Social and Business Life is Now Determined.

Richmond People Quick to Take Advantage of New Medicine.

The American people are waking up to the fact that health is a very important factor for the successful carrying on of business or social life. In the other countries of the world people seem to take better care of themselves and attend more to sanitary conditions than is the case in this country. But with the advent of Tanlac, the new medicine that has caused a furor here in healing so many thousands of people who were sick, men and women everywhere are coming to the conclusion that health is important and that it can be easily obtained. Here in Richmond, Tanlac has done wonders considering the short time it has been on sale here and the progressive nature of the people here who were quickly determined in the way they took up the remarkable remedy. It is this same spirit that has made Richmond the great city of the South. One of the Richmond women to be benefited by the new medicine is Mrs. J. L. Chamberlain, who lives at 16 South Lombard Street. In a recent interview she said: "I was a sufferer from acute indigestion and nervousness. I had pains all thru my chest and an accumulation of gas on my stomach that bothered me considerably. My breath was short and I was so nervous that I could not bear to even hear the children walk across the floor. I read a Tanlac advertisement and the statements of other people here who were benefited by it appealed to me. Since taking Tanlac I feel lots better and am a great deal stronger. The pains I used to have and the gas on my stomach are all a thing of the past. I don't suffer from shortness of breath and I have not had a nervous spell since. I think it is a wonderful medicine, and recommend it to every one who is a sufferer as I was."

Wake up with the rest of the country. Go today and see Mr. Prince, the Tanlac representative here, who is always at the Polk Miller drug store, corner Broad and Third Streets, and ask his advice about your illness. Tanlac is sold only at the Polk Miller stores for the better protection of the public against substitution. \$1 per bottle. Mail and phone orders are given prompt attention.—Advertisement.
